About Me

Front End Software Engineer with 3 years of professional experience developing web and cross-platform applications. Experienced in building responsive user interfaces with React and Angular, developing mobile applications with React Native, and building RESTful backend services using Node.js, Express.js, and PostgreSQL. Currently completing an MSc in Computer Science at University College Birmingham.

Experience

Software Engineer, Syftet LTD – Dhaka, Bangladesh Feb 2022 – Feb 2025

- Improved the performance of React Native applications by optimising component rendering, preventing unnecessary re-renders, and improving application logic and data handling.
- Implemented an offline-first architecture for mobile applications using SQLite, enabling users to access application data without an internet connection and synchronising data when connectivity was restored.
- Managed complex application state and state transitions using Redux, ensuring predictable data flow across feature-rich frontend applications.
- Developed complex frontend applications using component-based architecture, creating reusable and maintainable UI components across multiple features.

Front-End Developer, Internship, Source9 – Dhaka, Bangladesh Jan 2020 – May 2020

Projects

Daily Islam—Mobile Application Download APP

- Developed core application modules, including Quran, Dua, Books, Prayers, and Profiles, as part of a cross-platform mobile application.
- Worked on data synchronization between local and remote data sources to maintain application functionality across different network conditions.
- Implemented prayer-related functionality using device location to provide location-specific prayer information.

INWE—Web Chat chat.inweapp.com

- Developed Angular-based frontend features for a real-time messaging and social platform, implementing WebSocket-based functionality for real-time communication and updates between users.
- Integrated RESTful APIs with the Angular frontend to connect application features with backend services.
- Collaborated with the Ruby on Rails backend team to integrate frontend features with server-side functionality.

Technical Skills

Languages: HTML, CSS, JavaScript, TypeScript, Python
Frontend: React, Next.js, Angular, React Native, Redux, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, PostgreSQL, WebSockets

Education

University College Birmingham, United Kingdom, MSc in Computer Science Feb 2025 – Present

- **Dissertation:** Measuring Algorithmic Gender and Ethnicity Bias in Automated CV Screening: A Comparative Study of Machine Learning Classifiers for Technical Roles

City University, Bangladesh, BSc in Computer Science and Engineering Dec 2017 – Dec 2021

- **Coursework:** Object-Oriented Programming, Data Structures and Algorithms, Artificial Intelligence, Computer Networks, Software Engineering, System Design.
- **CGPA**: 3.57/4.00
